commit 79d9b3356e995046ca760d38782a6539718f56ed
Date: Wed Oct 6 23:09:48 2021

initial commit

Legend:

struct Blob

name

ref

commit

struct Commit

commit id

message

parent

second_parent

tracked_files

struct List

filename

content

hash

The legend defines the data structures and pointers used in the diagram. It shows a 'struct Blob' with a 'name' field (yellow box) and a 'ref' field (small text). A red arrow points from 'name' to 'commit'. It shows a 'struct Commit' with a 'commit id' field (blue box) and a 'message' field (small text). Blue arrows point from 'commit id' to 'parent' and 'second_parent'. A grey arrow points from 'message' to 'tracked_files'. It shows a 'struct List' with a 'filename' field (white box) and a 'content' field (white box). A small 'hash' label is at the bottom right.
